

OUR DIVISIONS & SERVICES

Incorporated in 2009 in Williams Lake, BC, and now having 18 offices across Canada, Irwin's Safety provides a one-stop shop for every Occupational Health and Safety and Industrial Labour requirement.

We have the capacity to provide support for Shutdowns, Maintenance, Capital Projects, Greenfield and Brownfield Construction and Operations, while showing commitment to localization and community contribution through strategic regional growth.

Our company is structured around four divisions, each providing a unique set of OH&S services complementing each other. They include:

Safety Consulting

We provide safety consulting for HSE Program Development, Industrial Hygiene, Emergency Response Planning, Confined Space Hazard Assessment Development, GAP Analysis, Digital HSE Programs, Air Quality, Executive Coaching, Environmental Surveys, Leadership, Ergonomics, Human Resources. We also supply Drug and Alcohol and Respiratory Fit Testing both on-site or at our offices across Canada.

Safety Training

We currently have hundreds of industry-recognized courses available online or in class that are required for gaining employment in many sectors. We also offer customized training development for company-site orientations or specific skills using an interactive approach and leveraging our innovative technologies.

Field Services

We provide manpower and equipment to meet the following needs: Safety Coordinators & Managers, High Angle & Confined Space Rescue, Contract Fire Services, Wildfire Prevention & Mitigation, Rope Access Skilled Labour, Paramedical & First Aid, Janitorial Services, Loss Prevention & Access Control Services, Labour & Monitoring Services for Shutdowns, Outages, Operations, and Projects.

Equipment & Software Solutions

We offer sales, rentals, and subscription options for equipment & software supporting Confined Space, PPE, Fire Suppression, Air Monitoring, and Fall Protection & Rescue. We also have several one-of-a-kind technologies designed to enhance safety & efficiency while reducing operating costs: Pyro UHP, Dragon Hooks Coveralls, Digital Document & Learning Management Solutions, Digital Confined Space Monitoring, and Connected Worker Safety Solutions
